STREET LIGHT BURNT OUT?

If you notice a street light that is either off or flickering, please call Republic ITS at

1 800 LIGHTS ON (1 800 544-4876).

Republic ITS has been hired by the Town of Bedford to maintain our 1,500 street lights. They can be contacted directly to report a street light outage. If possible, please have the pole number of the affected street light when you call. If there is no visible number on the pole, please provide Republic with the closest house or building address.

Important note: If you are reporting more than one streetlight please send information for all.
